John Blume, Esq.,

Marellbar Farm,

Libertyville, Ill., U.S.A.

Dear Johnny,

Your letter of the 9th December just to hand a day or two ago, and allow me to congratulate you on your great success at Toronto and the International. I can quite understand Kenny would make a good job of the judging at Toronto. I understand he is home but I have not seen or heard from him since his return. I hope to go up north early in January and will get all the news then.

How did Dick de Quincy get on amongst the steers at the International? I am pleased to know that he made a Shorthorn champion and the steer appears to have made a record price.

John Sleigh was on the phone and informed me that Kenny had made an Adjuster bull out of one of the heifers that Johnny Millar purchased from me when on a visit with you, champion for Bennett. What sort of a bull was this and am I right in thinking that the champion bull at the International was the one that Bennett's bull beat at Toronto?

Your bull Marellbar Mandate appears as if he is going to breed, and if there is anything in breeding the bull you got from me should follow on on his heifers. I had a very good full brother the other day, and looks to me, if he goes on, might make the best one the cow has had. Achilles is shaping well and getting into a lot of very good cattle by him.

You will be getting a good profit at Roy Watherstone's bull and also Bob MacKenzie's heifers. Your sale average, which is the thing that counts is extra good. I reckon at

the exchange over £270 of an average.

Your cattle should be landed. I hope they shipped fairly well, and you get them home in decent shape and that they are lucky for you.

I expect you will be coming across for Perth in the spring, and that you will pay me a visit.

With kindest regards to Mrs. Blume and your Goodself, and wishing you the Compliments of the Season in which the Family join.

Yours sincerely,

Albert Jas Marshall

Albert Jas. Marshall

Junior Association

The Indiana Jr. Shorthorn Association met at the Indiana State Fair in the Communications Building. There were sixteen members at the meeting. Officers were elected for the coming year. They are President — Andrew Humphrey, Vice President — Keith Carrington and Sec'y Treasurer — Jean Allison. Also, Jim Jordan was elected director of the Northern District. It was announced that signs and trash barrels had been placed in the beef barn of state fairgrounds advertising the Indiana Jr. Shorthorn Association. It was voted to present Irvin Schilling a plaque for aiding the Indiana Jr. Shorthorn Association in purchasing a steer from him to raffle at the 1966 Indiana State Fair. The steer was Grand Champion in its county. Also, the members decided to give a trophy to the Champion Shorthorn and plaque to the Reserve Champion Shorthorns at the Indiana State Fair. The meeting was adjourned by the new President.

EXPO(se) 67.

The year is well past its noon. As has been said 1966 was a banner year for Shorthorns generally, and especially in Indiana, where so many have never worked so hard to make it that way. We started in January with what I am sure was the most successful annual meeting in the history of the Association.

The Indiana Invitational sale at Marion, April 8 was the most satisfactory to date. April also brought along the Redline Farms sale of Bob Stimson, at Dumas, Arkansas. This is well in the Southeast part of the State and is called the delta country, which I believe since about everything was named Delta, such as stores, gas stations, motels etc.

To make this trip to Bob's sale had been planned well ahead on my 1967 agenda. The time arrived and most everyone was very busy. I commandeered a retired school teacher for aid and comfort and we were on our way. Nothing really eventful took place until we got into the South half of Missouri. Here the rice and cotton fields began to show up and with them the numerous small shacks, occupied by colored families which were just in reverse, six to a dozen children playing in every yard. How so many can be housed in such small space we'll never know. Added to the novelty was the ferrying of the White and Arkansas rivers. We read of the dilemma of our colored families in the cotton country and it is so obvious. Modern machinery has taken over and there is just no hoeing or picking of cotton left to do.

We arrived at the farm Sunday afternoon, before the sale Monday. The cattle were arranged in grassy lots for easy inspection. Soon Bob showed up and such a reception

and hospitality cannot be surpassed or ever forgotten. At the buffet dinner Sunday evening all this was reflected in the attendance, as it seemed the entire population of Dumas was there. Bob will be holding another sale next April, make your plans to attend, you will be more than welcome.

Another first was my opportunity to attend the Fernwood Farms sale at Barrington Illinois, Saturday, May 27th. This was a rather busy time also but a must in my plans, so drove past and picked up Cecil Steinmetz and we had a wonderful weekend. Fernwood Farm is partially an outgrowth of the Northwood establishment of a few years ago, and the hospitality of its ownership and management typical of the kind that has placed and kept our Shorthorn people at the top. The cattle offered for sale were of excellent breeding and presented in such condition that their new owners should experience no disappointment in their breeding ability. As at Redline, prices may have been a bit on the conservative side, but the cattle moved promptly on an even keel which makes for the satisfied buyer.

At Acadia, Monday May 29th, Northfield, Ohio, we were in company with auctioneers Don Smock and Joe Gossard, which is always a pleasure. We made the trip Sunday and were housed at the Yankee Clipper Motel. This had been taken care of by Betty Royon who has the reputation of doing about everything right. Preliminaries at the home of Cyrus Eaton, the owner, Sunday evening, were a repetition of that at the preceding sales. Monday morning was a bit disappointing, being ushered in with a cold dreary rain which was adverse to seeing the sale cattle in the lots. However the weatherman took over and with the aid of shorthorn power the skies cleared and an ideal day. With the sale under way, enthusiasm of the buyers had not been dampened. Highlight was the sale

of Acadia Troubedor 70th to Mrs. Fenwick at the record price of \$10,000 for a one-half interest. The good average was a reflection of the quality.

Next was the attendance of Paul Baker, Don Martin and myself at the ABC Clinic staged at the farm of Edward and Adyth Long, Channerville, Illinois, Sunday June 18th. A high quality herd of Polled Shorthorns is maintained and to see the setup for automatically feeding more than 600 commercial cattle was of much interest to the visitors. After the pitch-in dinner a full and interesting program was presented with a good variety of topics to hold interest of the crowd. Some of the best authority were on the program and handled their subjects in good style. A little warmth developed on the subject of Artificial Insemination, more of which will be heard later.

Those who failed to attend the joint Shorthorn picnic, June 25, held at the Clodfelters Glatwyn Farms, really missed one of the very best. The day turned rather cool but a crowd of some 300 or more came for the excellent program and basket lunch and to do honor to the unsurpassable hosts. The cattle were arranged in convenient lots and stalls for easy inspection and loaded with quality plus. As would be expected a fine program had been arranged and at its opening a warm welcome was extended by the host. Gene McDonald of The Shorthorn World and C. D. Swaffar, Secretary of the National Association who gave a brief report of their affairs.

The 1967 Indiana State Fair is now history, the weather was ideal which made good for the cattle. In the 4-H steer show the judging left a lot to be desired, the heifer show was somewhat better and the Gold Medal show may have been about average. The open show was staged Friday with John Shuman, Colomedow Farm, Deertrail, Colora-

do, officiating. It's quite a problem to please every exhibitor but John came very close. I walked the aisles after the show and heard no adverse comment. We would all have made a few changes but they were near the minimum.

As we go to press, reports from the County 4-H shows indicate our Juniors have given a good account of themselves perhaps coming out with two dozen or more Grand and Reserve Championships over all breeds. These are never all reported promptly and we would insist that those who present the trophies give this better attention. We invite our youngsters to visit the farms, attend the sales and include a Shorthorn steer or heifer in your 4-H Club project. Congratulations to all the winners and hope you all fare better next year. We hear comment that our new and younger breeders have begun to be a thorn in the flesh of the oldsters in the show ring. More power to them.

Whether or not expressed, we would never neglect to be thankful for the support of our members and those who advertise. They have made The Hoosier Shorthorn what it is, and I like to think of it, not as a publication but as an arm of our organization that has aroused interest, in Shorthorns, within our older breeders and gave us many new ones. Without this we would fail. Attend your Annual meetings, picnics, sales, any place where Shorthorn folks assemble and be a member of your Association. You will love it. If not a member, think it over.

Your Secretary.

ACHIEVEMENT AWARDS

For a number of years it has been the policy of The Indiana Shorthorn Association to present two cash awards in the amount of \$150.00 and \$100.00. These award certificates go to the boy or girl, interested in Shorthorns, who in the opinion of the judges has entered the two most outstanding overall achievement records in 4-H Club work. These certificates are equivalent to cash when applied on the purchase of any breeding animal sold in the Indiana State Shorthorn sale of that year. Perhaps this offer has not been properly publicised. At least the response has not been what it should be. We feel this offer is very worthwhile to our 4-H boys and girls and urge you to prepare your record books and present them to any officer of the Association on the opening day of the Indiana State Fair.

Winners of the 1967
Achievement Awards

Jerry Harlow

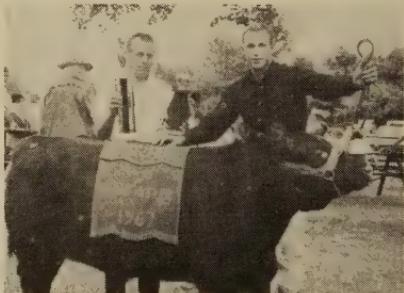

Jerry is the son of Mr. and Mrs. George Harlow, Tipton. He is the fourth generation with Shorthorns and is the owner of a few in his own right. We congratulate him for this achievement and hope he continues with Shorthorns.

Ronnie Sigler

Ronnie is the son of Mr. and Mrs. Jack Sigler, Frankton. He and his brother Tom have been familiar around the Shorthorn show ring since 4-H club age. His back ground is solid and we all congratulate him and hope he will keep right on going.

The 4-H Champions.

Ronnie Pulley

At the Huntington County 4-H show Ronald Pulley won the Reserve Grand Championship over all breeds with his Shorthorn steer. Ronnie is a student in Purdue University, a son of Mr. and Mrs. Albert Pulley and his calf came from the herd of Eldon Wall, Warren.

Another calf from the Wall herd was made Grand Champion of the Wells Co. show. This calf was owned by Ted Martz. Ted is the son of Mr. and Mrs. Ed Martz, Ossian, Ind.

* * * * *

The Reserve Grand Champion in the Davies Co. was owned by Becky Jackson. Becky's parents are Mr. and Mrs. Bruce Jackson, Washington, Ind.

* * * * *

In Benton County, Shorthorns emerged with both the Grand and Reserve Champion steers over all breeds. Ronnie, son of Mr. and Mrs. Bernard Scherer, Fowler, had the Grand Champion and he was sired by Acadia Napoleon 124th, herd sire in the Scherer and McGuire herd.

The Reserve Champion was shown by Jim Musser, Otterbein. This calf came from the Keith Inskeep herd, Lafayette, and sired by a bull from the Durbin Budd and Sons herd, Lebanon.

* * * * *

Fred Ripberger

I want to thank the Indiana Shorthorn Association for the nice trophy I received for winning the Reserve Grand Championship with my Shorthorn steer at the Tipton Co. 4-H show. Fred is the son of Mr. and Mrs. Paul Ripberger, Tipton, and got his calf from the McCorkle Farms herd, Elwood.

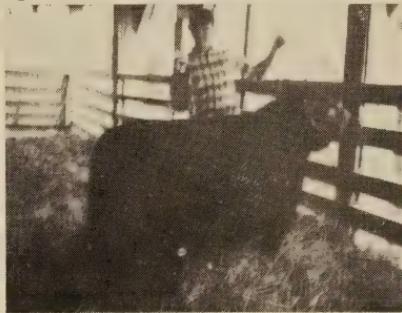

Duane and Rodney Cates

"My sincere thanks to the Indiana Shorthorn Association for the beautiful trophy I won for having the Grand Champion steer over all breeds at the Wayne Co. 4-H Fair. This is the 6th year that my brother or I have won the Grand Championship of our fair and all with Shorthorns. Needless to say, our family thinks Shorthorns are tops. This calf was also Grand Champion at the Randolph Co. Gold Medal show, and sold here to the Keesling Imp. Co. for 80 cents per pound."

Rodney Cates.

Rodney represents the Max Cates family, Williamsburg, and the steer was produced in their own herd of registered Shorthorns.

Randy Cates

"I want to thank the Indiana Shorthorn Association very, very much for the trophy I received recently at the Randolph County Fair. It is a very fine trophy and I am very proud of it."

Randy Cates.

Randy is the son of Mr. and Mrs.

Rex Cates, Modoc, and the steer also home bred.

We have no detailed report of the success of Jerry Withers who showed his Shorthorn steer to the Grand Championship over all breeds at the Harrison Co. 4-H Fair. His calf came from the herd of Gurley Bros. and Jerry's address is Laconia, Ind.

Kathy Stone

In Whitley County the Reserve Grand Champion over all breeds was owned and shown by Kathy Stone. Kathy's steer was bred by Richard King and Family, Andrews, Indiana, and was the only Club steer sold from that herd. Kathy did a real job. Our congratulations.

* * * * *

Proud owner, Nancy Barnett, Portland, Indiana, and her 830 lb. Reserve Grand Champion steer, "Meat Ball", at the Jay Co. 4-H Fair. The calf was purchased from

the Herbert Bye Family, and sold to the Haynes Milling Co. Nancy is the daughter of Mr. and Mrs. Herbert Barnett.

* * * * *

As in the past, we doubt very much if all County winners have been reported as we go to press. Any others will appear in the Spring issue of the Hoosier Shorthorn. We appreciate the efforts of our Juniors. The Association congratulates each one and wishes all a better future with Shorthorns.

Jim and Barry Jordan with Waukaru Capacious Queen.

Pictured above is Waukaru Capacious Queen 2nd, owned by Carl Jordan and Family, R. 5, Rensselaer. Capacious Queen is out of Dunrel Capacious Queen 3rd and sired by Deep Cove Napoleon 10th. Napoleon has been sireing many good calves for the Jordan family, but unfortunately was lost by lightning last fall.

This young senior calf has several champions to her credit already this year. She was champion female at the Lebanon Gold Medal show, champion at both the Jasper County 4-H division and Open show, Grand Champion of the Lake Central States Fair at Crown Point and placed second in the Gold Medal Show at the State Fair. In the Open

and 4-H classes at the State Fair she placed 5th. She has also been a member of several winning "pair of female" classes for the Jordans. Jim plans to enter her at the American Royal in Kansas City next month where a full sister won her class last year.

PRO and CON

Concerning Artificial Insemination
Mr. Max Cardey, President,
Riverside American Shorthorn

Association,
California
Dear Max:

I have read your Artificial Insemination letter in the Shorthorn World very carefully because it is the first time I have seen a written argument for eliminating the restrictions on AI from anyone that I thought had really given careful consideration to the problem. I am very glad you have asked breeders who don't happen to be on the Board of Directors, to express their views. Jumping into this new program at the April Board meeting without notice to the members that it was even being considered, would have been a horrible mistake. Actually, I think it is far too important a change in a well established policy to be dealt with by the Directors alone and that the members decision of such far reaching consequences at an annual meeting.

You will notice that I have referred to "eliminating" the restrictions whereas you have called it "liberalizing." In my considered judgment, I have used the right word. We now have substantially the same rules as the other beef breed associations and they are well established and understood. The only problems we have had are the real or fancied "hardship cases" and, of course, a few notorious violations. These would not disappear under "liberalized" rules but would multiply. Once the principle of selling semen is established any restriction at all would create a "hardship." This would call for another "liberalizing" and before

long we would be in the same position as the purebred breeders of dairy cattle.

The Shorthorn World in this same issue poses a number of questions about what the rules and restrictions would be. I think it is at least premature to discuss these proposals, however, because the real question is whether we should set out on a new path and desert the established limitation of AI to the owners of a bull.

It is argued and correctly I think that the widespread use of AI has improved the quality of the average herd of milk cows in this country, but an important contributing factor has also been the culling that went with the reduction in numbers. Possibly when the physical problems of AI have been whipped, the same improvement can be accomplished in the commercial herds producing feeding cattle. Our present AI restrictions do not interfere with that and never have. They apply only to the breeder of purebred and registered cattle.

The only justification the purebred breeder has for his existence is to work improvement in his breed and eventually in the commercial cattle of the country. Producing numbers is the business of the commercial breeder. Producing new and improving lines of breeding is the business of the purebred breeder. That purpose will not be accomplished if everybody follows the extreme fad or style of the moment and breeds his cows to the same bull. I don't suppose it would ever quite reach that point, but this is the basic hazard that would arise if purebred breeders go in for AI in a big way.

All breeds have had experiences with popular lines of breeding that got into serious trouble when carried too far. What would have happened if the popularity of the moment, aided and abetted by the availability of AI, had resulted in

all the purebred herds in the country being full of this breeding? Where would the new bulls have come from to correct the errors of the past?

Too much concentration in the blood of a few bulls and the down grading of everything else can only have bad results over a period of time.

I will readily agree that among the small breeders you mention, and they are the backbone of the Shorthorn business, there are some who would benefit temporarily from readily available AI and produce better cattle. That would be at the cost, however, of eliminating the chance that the bull he would otherwise use might turn out to be a real improver. The man you mention who wants to use a \$300 bull is not going to be a breed improver with or without AI.

I have based my objections in this letter on one point only. I am sure others will advance additional reasons such as the effect of widespread AI on the market demand for bulls and indirectly on the market for females of bull producing quality.

I know you will accept this letter in the spirit in which it is written and I hope you will receive many others on both sides of the question because I readily admit there are two sides. However, we all know that, regardless of their feelings on this subject, not too many Shorthorn breeders will actually write a letter in this busy farming season. Therefore I strongly urge that the Board postpone definite action until the December meeting when it can be given more mature consideration by the breeders themselves. It will take that long anyway to write the original set of rules and regulations.

*John Alexander
Melbourne Farm
Big Rock, Illinois*

Dear Mr. Cardey:

In running the risk of being called a persistent pest, I am going to bore you with my opinions on the expanded use of AI in our breed. First I am in favor of limited use of AI. The present rules are too restrictive and are not effective. Several of the larger, wealthier herds have consistently broken the rules and gotten by with it. Therefore, I think we should at least allow the other breeders a legal chance to use AI. AI will not in my opinion hurt the sale of good quality bulls. It is too expensive to use. If the semen costs \$50 per cow settled, which by the way is one-half the price of semen from the Criss Cross Holstein bull, and it costs \$10 for the inseminator, and \$10 for the registration papers, we have \$70 in the calf already before it is born. Using these cost estimates on a herd of 5 cows, it would cost \$350 a year to use AI. This would, however, allow this breeder to improve his herd faster as a better bull could be used and he would not have to put all his eggs in one basket. He could breed each cow to a different bull to capitalize on each animal's strong points. I personally am in favor of the program as you have outlined in The Shorthorn World. I think the majority should win in selling semen, in other words, if two of three owners are in favor, allow semen to be sold.

I would also like to disagree with Mr. Alexander's argument that this would lead to a homogeneous breed, good or bad, as the fad may lead us. Actually, AI would allow the small breeder who can afford only one bull, a way out when the bull's performance was not as desired. It would also allow some latitude for experimenting with different blood lines that he, at the present, cannot afford to experiment with. Mr. Alexander is also begging the question by assuming that the small breeder is not as smart as the large

bull producing farms that dominate the picture today. In his statement that we will breed in the bad or weak points and then try for generations to remove them, he is ignoring the fact that the following herds are using bulls basically in the production of more bulls that are all related to one common ancestor by less than three generations. I can name at least 11 major herds and there are many, many more using sons, grandsons and great grandsons of a popular bull. Will AI make this worse? I don't see how it could.

If we as a breed are going to exist as more than a hobby breed, we need to use every available tool to improve and expand our breed, and this includes expanded use of AI, along with classification, performance records, sonoray, and others yet to be perfected.

Sincerely,

*Jerry Manahan
Princeton, Ill.*

INDIANA JUNIOR SHORTHORN CHANCE STEER DOES O. K.

In January 1966 at the Indiana Junior Shorthorn meeting the active organization under the leader-

ship of Dale Allison, President and Alice Ferris, Secretary, decided that their group was in need of a better working fund to accomplish their efforts in promoting Shorthorn cattle in the state of Indiana. After contacting several of the older breeders thinking they solicited some token of donation in the form of a potential 4-H club steer calf to be demonstrated at the State Fair (1966) and chance tickets sold. Partial cost of the steer calf was donated by Sycamore Ridge Shorthorns and the steer was cared for by the Junior organization during Fair week. It was successful to the extent that the group added around \$250.00 to their working fund as well as good experience for the many members that participated in selling tickets.

The steer calf was won by a Carmel, Indiana, ticket holder who in turn sold the calf to a 4-H club member in Fulton County where the calf was the champion 4-H Shorthorn and the reserve grand champion, 1967. The Indiana Junior Shorthorn group expresses their gratitude to Irvin Schilling for his interest in these youngsters.

Indiana Lassie Queens
and Princesses

From left to right, Dorsun Holmes, Angela Leap, Karen Richardson, retiring queen, Liza Buck. Newly elected queen, Becky Miller and Nancy Barnett, the 1967 princesses.

Lassie Report by

Mrs. Paul Carrington

Recently, the Shorthorn Lassie's, sponsored a luncheon at Hospitality House in Plainfield. A fine program was planned by a committee with

Mrs. David Budd, of Lebanon as chairman. Several of the former lassie queens and princesses were present and introduced. Miss Virginia Webb, a former Lassie queen and 1967 Purdue graduate gave us a brief and interesting outline of a new approach to extension work being introduced. Mr. Dick Harper, President of the Junior Shorthorn Association gave a brief summary of the Junior achievements during the year. Then the highlight of the day, the presentation of the Princesses and the crowning of the Queen. We are lucky to have four princesses to reign this year with the queen. The princesses elected were Miss Nancy Barnett of Portland, Jay County; Miss Dorsun Holmes of Huntertown, Allen County; Miss Angela Leap of Shelby County and Miss Becky Miller of Jonesboro, Grant County. At this time Miss Lisa Buck of Bedford, Lawrence County was crowned queen of the Lassie organization for 1967-68 by Miss Karen Richardson of Clayton, the retiring queen. The girls were escorted by Keith Carrington of Russellville and Max Smith of Linden. The girls have been available to attend and assist at as many county fairs and Gold Medal shows as possible and also to represent the Shorthorns at the Indiana State Fair. Then Liza will be looking forward to her trip to The International Livestock Show at Chicago in November.

August 31, 1967

Dear Mr. Harlow,

The Shorthorn Lassie Association met at the Cox Cafeteria at the State Fairgrounds August 30, 1967.

Lisa Buck gave a short resume' of her summer activities as Lassie Queen. The princesses reported the number of fairs they attended. We owe these girls a special thanks for a job well-done.

Officers were nominated and elected for 1967-1968 as follows:

President—Mrs. David Budd R. 4, Lebanon, Indiana.

Vice - President — Mrs. William

Holmes, R. 1, Huntertown, Ind.
Sec-Treas—Mrs. James Gunn, R. 4, Greenfield, Indiana.

Directors—1 yr. Mrs. T. O. Richardson, R. 1, Clayton, Ind.

2 yr. Mrs. Ward Miller, R. Jonesboro, Indiana.

3 yr. Mrs. James McCorkle, R. 4, Elwood, Indiana.

Our Lassie Queen election for

The 1967 Lassie Queen is the daughter of Mr. and Mrs. Donald Buck, Bedford, Indiana.

1968 will be held in January at the annual meeting of the associations. Please send queen nominations to Mr. David Budd by December 1, 1967. We would like to have all nominees present at the State Sale at Marion which will be held the early part of December. Mrs. Budd

will contact all nominees of the exact date. Ballots will be mailed to all members of the four associations.

It is time to renew your Lassie membership. Anyone interested in becoming a member can do so by sending \$3.00 to Mrs. James C. Gunn, R. 4, Greenfield, Indiana 46140. One dollar goes to the Na-

The 1967 Exposition will be held November 16 to 26, one week earlier than had the show been held at its usual time November 24, the day after Thanksgiving, through December 2.

The date change will not alter the status of the International as the closing-climax event of the stock show year that starts in the early summer months with State and County Fairs and concludes each year in Chicago with the International Livestock Exposition.

Show officials point out that most major events of the livestock show will be merely moved ahead a week to the day, starting

international Lassie Association and we retain \$2.00 to cover expenses and help promote Shorthorns. If we maintain our present membership we receive \$10.00 from the National and if we have a good percentage increase we receive \$40.00. So all you ladies join us now — we need you!!

Dorothy Gunn

with the Junior Livestock Feeding Contest in which several hundred 4-H and F.F.A. members annually exhibit steers, lambs, and hogs.

The Junior Show will be held on Friday, November 17 instead of Friday, November 24, as will the National 4-H Livestock Judging Contest; and the Collegiate Livestock Judging Contest will take place on Saturday, November 18 instead of the following Saturday, November 25.

The grand champion steer will be picked on Monday, November 20, and judging of the purebred classes of Angus Hereford cattle will also be on Monday as in past years, followed by Shorthorns, and Polled Shorthorns Tuesday Nov. 21.

INDIANA SHORTHORN BREEDERS

STEER AND HEIFER CALF CLUB SALE

SATURDAY DECEMBER 9, MARION, IND.

Native Son: No matter where he wanders, industrialist Cyrus Eaton remains a loyal son of Nova Scotia. Recently, Eaton (born in Pugwash, N. S., population: 519) launched a personal campaign to promote tourism to the area, beginning with a series of simple notes tacked to bulletin boards at main offices of his two railroads (Baltimore & Ohio, Chesapeake & Ohio): "If you and your family have not completed plans for a summer vacation, you may wish to consider a suggestion

from Cyrus Eaton, chairman of the board. Ten or twelve farmers in the neighborhood of Mr. Eaton's own farm would like to entertain American guests . . ." In case that pitch falls short, Eaton is buying space in seven major U. S. newspapers this week to sing the praises of his native soil. After all, says millionaire Eaton, with the local farmers charging \$5 per person per day, the place is "ideal for families with young children."

HANSON HEIGHTS

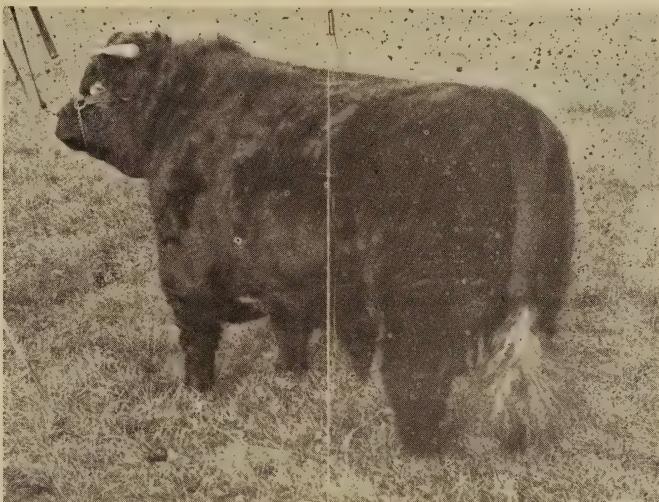

The
RESERVE CHAMPION

**Keynote's Cupbearer was
made the Reserve Junior
of the 1964 International
Livestock Exposition.**

His Sire

Tuscarora Keynote

His get will be featured at the 1968 sales & shows.

KEYNOTE'S CUPBEARER

At the Indiana State sale, Greenfield, Indiana October 28, we will be represented with a strong consignment.

At the Ak-Sar-Ben National, Omaha, Nebraska, December 5-6, will be selling two strong age bulls and an excellent pair of heifers.

At the Winter bull sale Omaha, Nebraska, our usual offering.

CONNERSVILLE, INDIANA

47331

At the Southeast edge of town

R. R. 3, Alquina Road

Tel.: AC 317, 825-9204

Our present cow herd now consists of more than 100 head. They are choicely bred and provide a good selection at all times, for sale privately at the farm.

A show herd is being prepared and will look forward to meeting you at the Fall Shows.

Your visit is always welcome and we always have the time.

INDIANA SHORTHORN BREEDERS' SHOW AND SALE

Show 9:00 a.m.

Sale 12:30 p.m.

SATURDAY, OCTOBER 29, 1967

4-H FAIRGROUNDS, GREENFIELD, INDIANA

20 miles East of Indianapolis on U.S. 40

60 HEAD SELLING

12 Bulls – 38 Females – 10 Club Calves

The production of purebred cattle is a challenge. Proper selling may be as great a challenge. Many times consignment sales have been looked upon with skepticism. A few years back, the State Association pledged themselves to hold an Annual Sale of quality, useful cattle, that should remove any doubt in the minds of the new owners. To the management, prices received from our past sales have seemed very conservative. However, since that time, through the selling of almost 500 head, one, and only one, complaint has arisen. After a few weeks, a nice letter informed us, the bull was working. A closed incident and an enviable record.

Be With Us Sale Day And Buy With Confidence

INDIANA SHORTHORN ASSOCIATION

Clyde G. Harlow, Secretary, Tipton, Indiana

GENERAL INFORMATION

LOCATION — Sale will be held at the 4-H Fairgrounds, Northeast corner of Greenfield, Indiana.

TIME — A show of the sale cattle will be at 9:00 a. m. The sale will start 12:30 p.m.

GUARANTEE — The guarantee recognized by the A. S. A. will cover the cattle selling.

TERMS — Terms of the sale are cash, unless other arrangements have been made with the consignor from whom you purchase and the sale manager is notified. All cattle become the responsibility of the purchaser as soon as bid off. Statements from the auction block take precedence over material printed in the catalog.

LIABILITY — Each transaction in this sale will constitute a contract between the seller and buyer of each lot. The auctioneers, ringmen, or sale manager have been employed by the consignors for a specific task not connected with the handling of the cattle or condition of the premises and will therefore accept no liability, legal or otherwise, for the buying contract or for any accident. Neither can the sellers accept any liability for any injuries that might occur.

REGISTRY CERTIFICATES — A Certificate of Registry will be furnished with each registered lot and will be transferred to the buyer without cost to him. Application for Registry will be furnished, properly signed, with each calf sold beside its dam, and for each unborn calf sold in dam.

FOOTNOTES — Footnotes appearing in this catalog were furnished by the consignors, and were written from information by them.

HEALTH — A Health Certificate, approved by the State Veterinarian will be furnished with each lot sold.

AUCTIONEERS — Don Smock, Whiteland, Indiana. Jim Humphries, Wolcott.

RINGMEN — Gene McDonald, The Shorthorn World, Aurora, Illinois; The Prairie Farmer. Jim Humphries, Wolcott.

HEADQUARTERS — The Howard Hughes Motor Lodge is designated as Sale Headquarters. Arrangements have been made with the management to accommodate as many of our guests as possible. The location is on the North Side of U. S. 40, approximately at the West edge of town. On arrival, we suggest you call here and inquire. If filled they will assist as best they can. You may make reservation direct or we will be glad to help. Address Howard Hughes Motor Lodge, Greenfield, Indiana.

MAIL BIDS OR TELEPHONE — Such may be placed in the hands of the Auctioneer, any of the above Fieldmen or the Sale Manager.

LUNCH — Will be available on grounds, sale day.

SALE COMMITTEE — The Board of Directors with Clyde Harlow, Secretary, Tipton, Indiana, 46072. Tel. Kempton, 947-2275.

RECOMMENDED GUARANTEE

(1) TERMS: The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction.

(2) LIABILITY: Although every possible precaution will be exercised to protect the safety and comfort of guests of the show and sale, neither this Association, nor its representatives, nor the auctioneers or clerks, can assume any liability for accidents.

(3) A — Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

B — All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of the date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

C — With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

D — When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial of a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price without interest to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

E — All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

F — Certificates of Registry and Transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred animals showing names and record numbers of sire and dam, as well as service date.

G — Shipment will be made as soon as released, but at the purchaser's risk of loss or injury after animal is bid off.

H — All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

(4) SHIPPING ARRANGEMENTS: It is the obligation of the consignors and this association to see that all cattle are properly loaded on cars or trucks as directed by the buyers for shipment. Cattle will be at buyer's risk as soon as bid off but every precaution will be taken to see that animals are cared for properly.

BE SURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS AND CORRECT TRANSFER INFORMATION WITH THE SALES CLERK.

(5) INSURANCE: Coverage may be secured at the time of sale.

MEYERWAY ROAN ROBIN. Here is a very good roan bull with beef, and from our 1967 show herd. He was Grand Champion of the Muncie and Rushville District Gold Medal shows and stood 3rd. in class at the recent Indiana State Fair. He is from the best cow in our herd, of the Gardenia family that has always produced excellent calves of both sexes.

ELECTRO-GROOM

A farm Necessity

The value of a heavy duty Electric Cleaner on the farm is well established. Originally for fitting beef cattle for the show ring, it has now found its place in doing hundreds of farm chores.

Superb in cleaning bins, drills, planters, dust accumulations etc.

They ARE Built To Take It

None are sturdier than the original Electro-Groom twin motors and an overall guarantee for a full year.

Now comes the new Electro-Groom Circuiteer. Not a vacuum but a Blower - Dryer - Fluffer. Easy to handle, weighs 20 pounds and can be shipped by mail.

Footnote

This outstanding show prospect combines the very best of domestic and Scotch bloodlines. This heifer's dam was bred in the world famous Pennsylvania State University herd and remained there in production for six years. She is an own daughter of the fanominal Willow Lee Rodney and a member of the best Penn State Tribe.

Unfortunately this calf's sire is deceased, much to the regret of the H ansons, Aircraft Landlord certainly has made a strong contribution toward advancing the breed.

If you are in search of anly the very finest, do not miss this heifer Sale day.

It's true . . .

cattle prefer

PIONEER

BRAND

985

sorghum-sundangrass hybrid

There's a big difference in the palatability of sorghum-sudangrass hybrids . . . and no one knows this better or expresses a more definite choice than cattle.

Given a choice, cattle quickly reveal their preference for Pioneer brand 985 Sorghum-Sudangrass. This has been proven time and again in on-the-farm comparison tests. Try this experiment for yourself. Strip test 985 along side the best competitive sorghum-sudangrass hybrids. Then keep an eye on how quickly your cattle find the dark green-leaved stand of 985. It won't take long . . . and when they find it, that's where they'll feed!

You get both palatability and yield in 985. It produces up to 1,000 pounds of forage per acre per day under good growing conditions.

See or call your local Pioneer salesman for complete information on 985 Sorghum-Sudangrass hybrid. He will appreciate the opportunity to service your requirements.
